

TTI Success Insights DISC

Proven | Effective | Results

Our popular DISC assessment explains “how” people do what they do in their daily lives. TTI Success Insights’ version of DISC uncovers unique insights about observable behaviors. This assessment is sometimes referred to as “the operator’s manual for employees.” DISC highlights specific behavioral characteristics a person is likely to possess, and is backed by research, making it a solid predictor of future behavior.

Client Benefits of the TTI Success Insights’ DISC Report

- Understand yourself
- Understand your interactions others
- Understand how people are different and adapt for success

Potential Applications for Your Clients’ Business

- Discover if the right people are in the right positions
- Create an action plan to help employees improve, engage and advance
- Enhance daily communication in all levels of the company

Ways to Educate Your Client Base

- Use TTI Success Insights blog articles to help inform clients about the benefits of DISC
- Demonstrate advantages of featuring an entire team in one DISC team report
- Offer a FREE assessment so clients can experience the report first-hand

The DISC assessment creates a foundation from which to explore insights that go below the surface through use of our other sciences.

DISC is available as a stand-alone report, or as part of the more comprehensive Talent Insights™ (behaviors with 12 driving forces or motivators) or TriMetrix® reports (behaviors combined with multiple sciences). DISC has been successfully helping people reveal human potential for decades.
